

Brilliance®

“When Appearance Is Everything”

Product Line

Separates

Brilliance is 100% non-toxic and biodegradable. Brilliance is safe to use indoors or outdoors. It will not harm people or pets. Our unique formula contains NO alcohol, NO ammonia, NO sodium lauryl sulfate and NO ethylene glycol butyl ether.

Brilliance is made in our own factory in California. You can trust Brilliance with your most demanding jobs and precious possessions. Using Brilliance will leave a high gloss, anti-static fingerprint resistant finish on all hard shiny surfaces.

Kits

Brilliance micro fiber cloth is the finest optical grade polishing cloth and is safe to use on all types of plastic and glass. Available in 'suede' and 'terry' style weaves to suit the demands of every cleaning situation. Our SofKloth is the ideal cleaning and polishing solution when a disposable cloth is required.

Cloths

Brilliance is used and recommended by leading companies in the automotive, aerospace, aquarium, consumer electronics, exhibition design, retail, manufacturing and fabrication markets.

When appearance is everything trust Brilliance.
